

BABY CARROTCAM

ULTRA LOW LIGHT MINIATURE CAMERA

Miniature ultra sensitive low light ruggedised cameras now available in **Colour** or B/W variants.

The Baby CarrotCam is a miniature camera ideal for low light scenarios. The highly sensitive 1/3" (B/W) and 1/3.2" (Colour) sensors provide crisp images during the day and at night.

A standard M12 lens thread allows numerous lens options. The weather resistant lens cover allows up to a miniature 35mm lens to be fitted whilst retaining the weatherproof nature of the camera.

Standard 1/4"-20 UNC mount points are available on the top, bottom and rear allowing secure fastening. Additional mount points are also provided which allow the use of alternative universal mounts as required (sold separately).

Free To Download 3D printable bracket models enhance the deployment flexibility of this camera providing unique deployment options which were previously unavailable.

INA-VC-M725

- 1/3" CCD sensor, 570 TVL
- Monochrome IR sensitive CCD
- Low Light Sensitivity 0.00009 lux. (sens-up on)
- DC 9-28V (80mA approx. DC12V)

INA-VC-C725

- 1/3.2" CMOS sensor, 750 TVL
- Colour digital CMOS sensor
- Low Light Sensitivity 0.006 lux. (sens-up on)
- DC 9-28V (60mA approx. DC12V)

Supplied with either a 3.6, 4, 6, 8, 12, or 16mm IR corrected lens (please specify at time of ordering)

STANDARD**

The following Baby CarrotCam deployment kits are available which contain the most commonly used deployment items. Our PhasIR miniature infrared illuminators are the perfect companion for the B/W BabyCarrot.

INA-VC-M725-K1, Board lens kit

INA-VC-C725-K1, Board lens kit

- Baby CarrotCam camera
- 3.6, 4, 6, 8, 12, 16, and 25mm IR corrected board lenses
- 35mm hi-res miniature board lens
- Robust carry case

INA-VC-M725-IRK1, Single PhasIR kit

- Baby CarrotCam camera
- 3.6, 4, 6, 8, 12, 16, and 25mm IR corrected board lenses
- 35mm hi-res miniature board lens
- PhasIR infrared illuminator (please specify angle required)
- Robust carry case

INA-VC-M725-IRK3, Triple PhasIR kit

- Baby CarrotCam camera
- 3.6, 4, 6, 8, 12, 16, and 25mm IR corrected board lenses
- 35mm hi-res miniature board lens
- Narrow angle PhasIR infrared illuminator
- Wide angle PhasIR infrared illuminator
- Oval beam PhasIR infrared illuminator
- Robust carry case
